# ABOUT US

Linyi Supereco Building & Decoration Materials Co., Ltd., based in Shandong, China since 2006, is an industry leader specializing in HDPE foam board production. Our expert R&D and design teams ensure high-quality products tailored to customer needs.

Our HDPE foam boards, made from recycled materials, offer superior durability (20-year lifespan, 2-year color retention outdoors). They feature excellent toughness, wood-like nail-holding capacity surpassing WPC, and versatile color options.

Widely used for outdoor furniture (tables, beach chairs), park fixtures (benches, flower boxes), and fencing, our eco-friendly products are particularly popular in developed markets for their sustainable advantages.

## Maintenance And Upkeep

### 1.Cleaning:

Wipe the chair regularly with a damp cloth. For stubborn dirt, use a mixture of mild soap and water. Avoid abrasive cleaners.

### 2.Avoid Harsh Weather:

Although the chair is weather-resistant, prolonged exposure to extreme weather conditions (e.g., heavy rain or snow) may cause wear. Store the chair in a sheltered area when not in use.

### 3.Check for Loose Screws:

Periodically check the screws and tighten them if necessary.

### 4.Storing:

If storing for the winter, dean the chair thoroughly, dry it completely, and store in a dry, cool place.

## Additional Tips

### 1.Cushions:

For added comfort, you can add outdoor cushions. Make sure they are designed for outdoor use and are moisture-resistant.

### 2.Protective Covers:

If the chair is left outdoors during the rainy season, consider using a protetive cover to extend its lifespan.
